Cancerle pe care le-au dezvoltat asistentele:

limfom - 6  
colon - 6  
sân - 5  
de plămân, leucemie, melanom - câte 2  
inimă, creier, apendice, arborele biliar, leiomiiosarcom - câte unul

**Comentariul Dr. William Makis:**

**Vaccinurile ARNm anti-COVID-19 cauzează cancer turbo agresive care apar adesea într-un stadiu avansat (de obicei stadiul 3 sau 4), cresc foarte rapid, se răspândesc sau metastazează rapid și sunt în general rezistente la tratamentele convenționale pentru cancer (chimioterapie, radiații).**

**CONCLUZIE: Este șocant să vedem atât de multe asistente tinere care suferă de cancer atât de agresive în stadiu terminal.**

Când am început să observ pentru prima dată cancer turbo la cei vaccinați, leucemiile, limfoamele și glioblastoamele (cancerul creierului) erau cele care ucideau oamenii vaccinați în câteva săptămâni, zile, uneori chiar ore.

**Dar, ca medic oncolog, sunt terifiat să văd atât de multe cancer de sân și de colon în stadiu terminal care apar „de nicăieri”.**

Ceva este foarte în neregulă aici.

**Mă tem că vom vedea acest pattern la oameni din toate profesiile în cazul cărora vaccinul ARNm COVID-19 a fost obligatoriu, a încheiat Dr. Makis (<http://www.activenews.ro/persoane/Dr.-William-Makis-12678>).**

**30 de asistente au dezvoltat cancer turbo (galopante) după primirea vaccinului anti-Covid:**

29 iulie 2023 - Bossier, LA - Asistenta de zbor, în vârstă de 56 de ani, Yvette Monique Heiman, a murit pe 29 iulie 2023 din cauza unui cancer rar la inimă, care s-a extins la creier. Ea s-a luptat cu acest cancer turbo rar timp de un an de zile.

It is with a VERY heavy heart I post this message.

From her husband:

Yvette Heiman, (fellow flight nurse), passed away early morning, 29 Jul 23. She died of a rare cancer that originated in her heart and then spread to her brain and spinal fluid. She fought it bravely for one full year. Throughout, she never lost her beautiful spirit or her beautiful smile. I'm happy to tell you she experienced little discomfort during hospice and she died peacefully.

They are not having an online obituary etc. They request no flowers or donations. No contact to the family at this time.

A few of us flyers are putting together a slide show for her family and friends.

The ask: if you have any pictures of Yvette, please text to 618-978-2907.

She will be greatly missed by all.

Dear Friends, Family, and Kindhearted Strangers,

We are reaching out to you today on behalf of our beloved Amy Cooney, a devoted wife, loving mother, and compassionate nurse who has recently been faced with an unimaginable challenge. In November 2021, Amy was diagnosed with stage 4 colon cancer, and since then, she has been battling this formidable disease with unwavering strength and determination. As her journey continues, we are seeking your support to

"I found a lump" the scariest words my sister has ever whimpered to me. Little did I know this was just the start of her journey against breast cancer.

On June 12, 2023 my sister, Lindsey Brim, wife of Brett Brim, mother of Cassidy (12) and Jase (10), daughter, sister and friend to ALL, received results of her biopsy that concluded a high grade 3, hormone positive, invasive ductal carcinoma with positive axillary lymph nodes. Breast cancer! How can this be? We do not have breast cancer in

immediately, pained any, and every medical professional I have met throughout my career to offer words of wisdom, connections and advice. High Point Hospital, this sweet little community hospital, full of amazing medical doctors, anesthesia providers, nurses, and hospital staff showed up and showed off for us. Lindsey was able to get scans, port placement, genetic screening and support within a week.

Since her biopsy, her breast has tripled in size. What we thought was a massive hematoma from the biopsy puncture site causing this rapid increase, turned out to be a larger tumor within her breast that only the MRI picked up. 10cm x 10cm x 10cm with a 2.5cm x 3cm solid mass protrusion. How? Lindsey said, "I'm so scared." These words crushed me.

# Astros' Jonathan Sprinkle Puts Aside Baseball; Assists In Sister's Cancer Battle

By Kenny Van Doren Published July 16, 2023

A month into this season, [Jonathan Sprinkle](#) answered a phone call and heard life-altering news on the other end. His sister, Amanda, had been diagnosed with acute myeloid leukemia, a cancer of the blood and bone marrow.

Sitting in the parking lot of Whataburger Field in Corpus Christi, Texas, Sprinkle wanted to rush home. It took all the persuasive powers of both Amanda and his mother, Laura, to convince him to stay with the Hooks and focus on baseball until a treatment plan for Amanda was in place.

From watching a movie to playing a board game, Jonathan wants to be Amanda's rock as she eases back into her normal life. There isn't a set timetable for when life can return to normal for Amanda, though, but her battle with cancer changed her outlook on her job as a [nurse](#).

# Brandy's Battle

Hi, my name is Mia and I'm fundraising for Brandy Schmidt. For those of you that have had a chance to know Brandy, I know there aren't enough good things you could say about her. For those of you that haven't had a chance to meet her, well let's just say she's the kind of friend that would do anything for anyone. In April Brandy ran 80 km for cancer research fundraising efforts, has done the Run For the Cure four times, and has donated 50 inches of her hair to make wigs for those effected by cancer. She helped care for her mom when she underwent cancer treatment while going to nursing school. Not only is she a great friend and family member but she's an amazing nurse that brings joy to others and gives back to our community. Brandy is a loving wife and mother of two beautiful kids. Recently our lives have been turned upside down as our kind and loving friend has been diagnosed with Stage 4 Metastatic Melanoma and will be off of work for at least a year while she undergoes treatment. I'm reaching out and asking for support so Brandy can focus on fighting and prioritize healing. Thank you for your time and supporting Brandy's Battle #cancersucks

# Help Evonne Fight Lymphoma

Heide Rollings is organizing this fundraiser.

---

In May 2023, Evonne was diagnosed with diffuse large B-cell lymphoma, an aggressive type of non-Hodgkin's lymphoma. Due to a lymph node mass that caused intense kidney and pancreatic pain, Evonne was hospitalized for a week in May before beginning chemotherapy treatment in early June. She will need a total of 6 rounds of R-CHOP chemotherapy treatment over 18 weeks. In addition to the physical and emotional toll this has taken on Evonne, her cancer and treatment have greatly impacted her husband and 6- and 9-year-old daughters. To help out, her mother has been staying with Evonne's

# Help Shannon Beat Lymphoma!

Shannon was diagnosed with Stage II Hodgkin's Lymphoma in September 2022. Who knew we would be revisiting in sickness and in health? She started chemo treatments a couple of weeks later and finished them up about 6 months later. In mid May, she had a follow up PET scan to determine if she was in remission or not. We got the results back on June 27 and the cancer is still there.

# Help Syl beat Colon Cancer with Liver Metastases

Roxanne Murden is organizing this fundraiser.

Hello Family and Friends. Thank you for taking the time to read this today and learn about our beautiful girl, Sylvia Brienza McEwen. **Wife, mother, sister, aunt, friend, nurse and warrior!**

As many of you know, my fearless sister Sylvia has been battling stage 4 colon cancer that has metastasized to her liver. Sylvia's battle began in May, 2022. During this time, she has shown the world what it means to be a true warrior and to never give up or stop

# Jordan Mitchell's Fight against Cancer

Jordan is a 26 year old small town girl who loves with everything she has. She's an ER nurse. A Daughter, a Sister, a very loved bonus mama, a girlfriend, and a friend. She's spends her days off traveling, going to the lake, spending time with family and loving on her Fur baby.

Unfortunately, Jordan has had some devastating news. What started as neck pain- turned out to be cancer. Through imaging- she was given the diagnoses of Breast Cancer with Mets to the liver, lungs, and bone (spine.).

# Pay for surgery and hospital bills for my son...

Margarita Segundo is organizing this fundraiser on behalf of Eber Delgado.

Hi,

My name is Margarita, and I am fundraising for my oldest son Eber. He is a dedicated Home Health Nurse working in the Dallas-Fort Worth Metroplex, who has made a parenthesis in his life, and vocation as a nurse, to treat a Cancer that developed in his appendix. He was recently diagnosed with Appendiceal Cancer Stage 4, and already had 2 surgeries, one to remove a tumor that he had inside the appendix, and another to remove tissue, and collect biopsies to determine the severity of his situation; there biopsies were done in preparation for a major surgery that will take place this Tuesday, June 20th, 2023 here in Plano, Texas USA.

# Brady's Non-Hodgkins Lymphoma Medical Fund

Kayleen Hicks is organizing this fundraiser on behalf of Peggy Hicks.

The purpose of the fund is to provide Brady and his family funds to recoup medical costs from being airlifted to Stanford hospital, and help with ongoing expenses, since Brady will be off work a minimum of 6 months! Brady had had some minor illnesses and aches and pains since his 40th birthday in March. He thought "he was getting old" and continued to work as an RN at Enloe Hospital and care for his 3 children. On Saturday, June 10th, Brady was at a bookstore, and became short of breath with chest pain. At the Enloe Emergency Room, doctors feared a heart attack, but a CT scan showed 2 very large masses in his chest— one pushing on his heart, and the other, or his airway! He was taken by air ambulance ( not covered by insurance) to the wonderful Stanford hospital in Pleasanton. He had an amazing medical team, and was diagnosed with Stage 3 DLBCL

# HELP OUR FRIEND FIGHT BREAST CANCER

Marissa Flores is organizing this fundraiser on behalf of Claudia Lizarraga.

---

Family and friends, thank you for taking the time to visit this page. For those who don't know her, here is a little bit about Claudia. She is young, kind, caring, and loving. She is a daughter, sister, cousin, friend, and dedicated Registered Nurse. She has a passion for caring for her patients and a passion for teaching those who want to do the same. She is smart, full of life, and looks forward to the adventures she has ahead of her... But now she is on the other side of medicine, as a patient herself, and needs our support during this difficult time.

On January 4, 2023, Claudia was diagnosed with Breast Cancer. After surgery and further testing she learned that it was already Stage 4. With a fire in her heart, she is

Heidi Rogers is organizing this fundraiser.

As many of you may have heard Heidi has been sick for past couple of months. Unfortunately, last week she was given some concerning news. Testing came back concerning for Lymphoma. Although, this is not a definitive diagnosis yet, this is the major concern. She is currently undergoing biopsies, multiple tests, multiple specialist and hopes to start treatment ASAP. She is currently missing work and has been required to pay large deductibles for her test. Please help her through these challenging times to offset the medical bills, deductible and lost wages. After all, she has dedicated the last 20+ years to helping others as a Baycare/Excelis Emergency Room Nurse Practitioner ❤️.

Update:

Cholangiocarcinoma advanced stages 4. Oncology has already reached out to moffitt for a second opinion and see if I qualify for any trials . I start chemo Wednesday

Geologii marini confirmă faptul că Marea Neagră de pe litoralul românesc a devenit efectiv periculoasă după operațiunile de lărgire a plajelor. Oamenii înghițiți de ape în ultima perioadă nu au murit din vina lor, ci din neglijența criminală a autorităților.
